FOR CONSTRUCTION MANAGEMENT AND INSPECTION
SERVICES FOR THE
870-2 PUMP STATION PROJECT**

The Otay Water District (District) will require the professional services of a Construction Management and Inspection Services firm for the construction of the 870-2 Pump Station Project. The Project includes a new pump station (870-2 Pump Station) to replace the District's existing Low Head Pump Station (571-1 Pump Station) and High Head Pump Station (870-1 Pump Station). The draft Project Design Report prepared by Carollo Engineers, Inc. in 2014 is available in electronic form from the Project Manager. The general scope of work for the Project includes, but is not limited to, the following:

- Value Engineering
- Constructability Review of the 60% and 90% Plans and Specifications
- Bidding Assistance
- Construction Contract Administration
- Inspection
- Project Start-Up/Commissioning

Interested candidates are required to e-mail a Letter of Interest (LOI) and a Statement of Qualifications (SOQ) to Dan Martin, P.E., at dan.martin@otaywater.gov no later than 4:00 PM on Thursday, March 27, 2014. RFP materials will be e-mailed to qualified firms within two business days after confirmed receipt of LOI and SOQ via e-mail. If a firm has submitted a SOQ to the District within the calendar year and the qualifications remain current and accurate, then only a Letter of Interest is required. Technical questions should be referred to the Otay Water District Project Manager, Dan Martin, P.E., at (619) 670-2243.

Dated this 11th day of March, 2014.

Rod Posada, P.E., CCM
Chief of Engineering
OTAY WATER DISTRICT
