

## Private Home

Bonita, CA 91902

This residential project features Rain-Saving to Gutter, Yard, and Container Best Management Practices. New gutters along the main house and gazebo diverted water directly to vegetated yard areas until the resident installed four rain barrels to collect water for landscaping. The barrels overflow to the yard.

PRE-PROJECT PHOTO

### PROJECT OUTPUTS

- Area treated:
  - » **1,831 sqft** of roof area treated
- Storage capacity:
  - 856 gallons** of rainwater storage capacity in the rain barrels and yard

### PROJECT OUTCOMES

- Rainwater prevented from flowing off the property:
  - 9,300 gallons/year**
- Nitrogen reductions:
  - .35 lbs/year**

“

The assistance provided by WRP staff throughout the application process is excellent, the funds available are very adequate, and the results not only help our environment but beautify our properties. I look forward to participating in future projects.
